

Sprint 2 Review

03/15/2020 – 03/20/2020

Team:

Chandan Yadav

Nachiappan Lakshmanan

Ashutosh Dey

Srinivasan Sundar

Ashwin Srinivasan

- All the user stories have been completed timely and have been moved to completed state.
- The save and load functionality has been retained and have been tested about different tabs.
- The challenging tasks was to retain all the connections of the shape of only the saved tabs, and to load them later.
- Compiling and validation task has been accomplished.
- User can add the shapes and connect them and validate them successfully, incase of invalid structures the user is notified.
- On click of the compile button the user is notified of the validity of each tab. We aim to validate all the tabs on one click.
- Since we were able to complete all the tasks assigned and sized, there are no more items shown in the pending tasks
